RELEASE NOTES

OnTime 4.0.3

ClockedIn Software Release Notes – OnTime Version 4.0.3

Software:	ClockedIn – OnTime Android Application
Current version number:	V4.0.2
Reason for update:	Performance improvements to the OnTime application.
Changes made:	<ul style="list-style-type: none"> • Further improvements made to the FOB functionality on Android 9.0 devices to remedy an issue where a FOB is placed but not matched and a white screen appears. • Improvements made in the OnTime application integration with the Fingerprint reader, this is to prevent the 'Place Fingerprint' icon disappearing from the OnTime home screen. Note – the USB pop up box must have it's permission accepted if prompted, this is an Android O.S requirement.
New version number:	V4.0.3
Date of release:	01.06.2021

Testing Steps:	The improvement to the FOB functionality has been tested and no occurrences of the previous issue has been recorded on an Android 9.0 device within the ClockedIn Test environment.
Other Impacts:	There are no other impacts to the way the App operates or data that is collected.
Notes:	The App can only be connected to AirStack Version 2.0 or above

Updates:	Devices using OnTime will need to be upgraded.
