RELEASE NOTES

OnTime 4.0.4

ClockedIn Software Release Notes – OnTime Version 4.0.4

Software:	ClockedIn – OnTime Android Application
Current version number:	V4.0.3
Reason for update:	Performance improvements to the OnTime application.
Changes made:	<ul style="list-style-type: none"> • Resolution to an infrequent issue whereby the OnTime application would become unresponsive after a ClockIn/Out event. The ClockIn/Out message would stay on the screen and the application would not return to the OnTime Home screen. • Improvements made in the OnTime application integration with the Fingerprint reader, this is to prevent the 'Place Fingerprint' icon refreshing when inactive on the OnTime home screen on Android 6 devices. • Resolved an infrequent crash where after a finger is placed on the reader, the app would revert to the Android Home screen.
New version number:	V4.0.4
Date of release:	15.06.2021

Testing Steps:	All changes in this version have been tested in the ClockedIn Testing environment and no further occurrences have been identified.
Other Impacts:	There are no other impacts to the way the App operates or data that is collected.

Notes:	The App can only be connected to AirStack Version 2.0 or above
Updates:	Devices using OnTime will need to be upgraded.
