ClockedIn Software Release Notes – OnTime Version 4.2.1

Software:	ClockedIn – OnTime Android Application
Current version number:	V4.2
Reason for update:	Performance enhancements to the OnTime app
Changes made:	API enhancement to prevent a timeout when no response is received from the server. This will prevent the OnTime app not showing the successful Clock In/Out message during the process of an event.
New version number:	V4.2.1
Date of release:	24/02/2022

Testing Steps:	All changes in this version have been tested in the ClockedIn Testing environment and no further occurrences have been identified.
Other Impacts:	There are no other impacts to the way the App operates or data that is collected.
Notes:	The App can only be connected to AirStack Version 2.0 or above
Updates:	All SmartHub devices using OnTime will need to be upgraded.
