ClockedIn Software Release Notes – OnTime Version 5.0

Software:	ClockedIn – OnTime Android Application
Current version number:	v4.3.1
Reason for update:	Integration with newest model of SmartHub (Android 11) and further feature enhancements to OnTime Software.
Changes made:	- Fingerprint Reader SDK update for integration of newest model of SmartHub device (Android 11) - User Interface changes (Android 11 Only) - Pin Length controlled by AirStack – 8 or 9 characters - Fob and Fingerprint Scanner enabled/disabled controlled by AirStack. This can be overwritten on the local Admin device settings, however the device will no longer look for the global control by AirStack.
New version number:	V5.0
Date of release:	01/12/2022

Testing Steps:	All changes in this version have been tested in the ClockedIn Testing environment and no further occurrences have been identified.
Other Impacts:	There are no other impacts to the way the App operates or data that is collected.
Notes:	OnTime v5.0 is recommended to be used alongside AirStack v3.0 or above, however is compatible with AirStack v2.0 or above.

Updates:	All devices using OnTime will need to be upgraded.
