ClockedIn Software Release Notes – OnTime Version 5.1

Software:	ClockedIn – OnTime Android Application
Current version number:	V5.0.4
Reason for update:	Improvements made to the integrated Fingerprint SDK for efficiency at point of Clock In/Out
Changes made:	• The Fingerprint SDK has been altered to prevent a case occurring for some users where their prints were being mirrored, rather than rotated. The result meant that the matching rate will have been reduced when comparing against the directions. Any user who has experienced fingerprint matching issues should re register their fingers on this new version. • Improvements made to OnTime logs to enhance the Clock In/Out speed at point of Clock In/Out
New version number:	V5.1
Date of release:	09/05/2023

Testing Steps:	All changes in this version have been tested in the ClockedIn Testing environment and no further occurrences have been identified.
Other Impacts:	Any user who is experiencing fingerprint matching issues should re register their fingers on this new version.

Notes:	
Updates:	All devices using OnTime will need to be upgraded.
