ClockedIn Software Release Notes – OnTime Version 6.5.5

Software:	ClockedIn – OnTime Android Application
Current version number:	V6.4
Reason for update:	Bug fixes and feature enhancements to OnTime.
Changes made:	**Improvements:** 1. Accessibility Feature - Added 'SwipeAndGo' functionality for individual users set up via AirStack on the 'Employee Page'. Set an individual to swipe and go for a one step contact with the OnTime device. 2. Improve system performance when fetching a large amount of data from the database. 3. Optimising the speed of the OnTime app by removing legacy log files. 4. Implement the latest Fingerprint SDK. **Bugs:** 1. Fixed a crash that occurs when the server sends a 500 error in the API response to the OnTime app.
New version number:	V6.5.5
Date of release:	22/01/2024

Testing Steps:	All changes in this version have been tested in the ClockedIn Testing environment and no further occurrences have been identified.
Other Impacts:	No other impacts.

Notes:	
Updates:	All devices using OnTime will need to be upgraded.
